October 1, 2008

To Our Valued Partners,

Dresser-Rand Enginuity's 2008 HPFi User's Conference was held in Fort Collins Colorado in September of 2008. The conference was attended by Pipeline End Users from all over the United States and was a grand success. The associated event's were special and enjoyed by all those attending including some very lucky wife's.

Next year's conference dates and location have not yet been determined. We are planning to return to the gulf region. Please return to this web-site in the near future to keep up with our planning.

Should you have an opinion to share as to where you would like to see the conference please contact Enginuity Aftermarket Services, either through this web-site or by calling 970-224-0170.

See you next year!

The Dresser-Rand Enginuity Team
